

PRESS RELEASE

Bastien Rocheteau has joined Épopée Gestion as Investment Director within the Infrastructure and Climate team

Paris, 9 April 2026 – **Épopée Gestion, a leading player in regional investment across the French Atlantic Arc, announces the nomination of Bastien Rocheteau as Investment Director within its ‘Infrastructure and Climate’ team.**

This strategic move marks a new milestone in the management company’s ambition to accelerate the environmental and energy transition at the heart of the regions. The “Infrastructure and Climate” team now comprises six dedicated professionals, working to manage a fund with a target size of €250 million – Épopée Infra Climat I – for which the fundraising period ends in late July 2026.

During his 12 years of experience in financial advisory at Natixis and subsequently at Green Giraffe Advisory, Bastien Rocheteau has supported entrepreneurs in the energy transition sector in structuring their fundraising and M&A transactions, and more generally in financing their growth. His international career, which took him as far as Cape Town to develop Green Giraffe Advisory’s business there, has given him a broad perspective and an ability to identify innovative models; assets he will put at the service of regional players in the ecological transition.

Based in Paris, Bastien Rocheteau will be responsible for overseeing the entire investment cycle, from identifying new low-carbon infrastructure opportunities to structuring and executing investments, right through to the deployment of funds.

He will also oversee portfolio investments by providing hands-on support, working closely with management teams to transform regional infrastructure into drivers of decarbonisation.

Ronan Le Moal and Charles Cabillic, co-founders of Épopée Gestion, say: *“Bastien is exactly the kind of person we were looking for to strengthen our Infrastructure and Climate team: solid financial expertise dedicated to the energy transition, an international outlook, and a deep conviction that local communities are at the heart of decarbonisation. With six professionals now on board our Épopée Infra Climat I fund, we are equipping ourselves to identify and support the best low-carbon infrastructure projects across the regions. We are delighted to welcome him to the team and wish him every success in his new role.”*

About Épopée Gestion

Épopée Gestion is an investment firm co-founded in 2020 by Ronan Le Moal and Charles Cabillic, whose mission is to develop regional economies by providing long-term support to regional businesses, primarily based in western France. Épopée Gestion aims to ‘reinvest in the regions’ and foster the emergence of regional champions through an inclusive investment ecosystem centred on four complementary sectors: innovation and digital technology (Xplore I, Xplore II), the transition of SMEs / mid-market companies (Épopée Transitions I), sustainable property (Épopée Immo Rendement I, Épopée Hôtels I) and infrastructure and climate (Épopée Infra Climat I). Épopée Gestion’s geographical scope is expected to expand gradually in the coming years.
